1915-1916

Following a more or less general collegiate practice, the University catalogue will hereafter announce the courses of the year in which it is published rather than of the succeeding year. In contemplation of this change from the former plan this catalogue, issued in May, 1914, and containing announcements of courses for 1914-1915, was printed in a sufficiently large edition to serve the usual needs of the summer and the fall of 1915. The catalogue for 1915-1916 will be issued in January, 1916.

Prospective students and others interested may safely assume that with but few changes the courses of study as announced in this catalogue will be the courses of study for 1915-1916. Such changes as are made will be duly announced in the annual News Letter to be issued August first. This News Letter will also give full information as to changes in instructors and as to specific plans for the year.
Calendar for 1915-1916
